

90-DAY AUTOMATION ACCELERATOR PROGRAM

RPA90X

Accelirate's RPA90X program is the first and only, proven, tried and implemented 90-Day Automation Accelerator Program. RPA90X is designed for either a company new to RPA or to a division within a company that just hasn't had proper exposure to the technology. RPA90X contains a base level of everything you need to get your program started and prevents you from going down a rabbit hole of unexpected cost and unstructured deliverables. RPA90X was built just for these reasons and will get you a Development and Production ready environment, as well as IN PRODUCTION processes that show real man hours returned to the business in the first 90 days.

The RPA90X program was designed to get in and get real results through our E^4 Strategy and Accelirate Delivery Pod:

The E^4 Strategy is the proven Accelirate methodology that inspired the packaging of the RPA90X program. It was created not only to help jump-start RPA implementation within an enterprise but allows for customization to meet the unique business needs of every company. With RPA90X, your company will first learn about RPA directly from the Accelirate team, then work with them to select possible processes for automation and help to determine the goals and plans for your company's digital transformation. Accelirate will then evaluate processes for automation, noting the ones that offer the best business-value and greatest ROI. Once ideal candidates have been selected, implementation begins and the ground work for a broader implementation plan is put into place. Simultaneously as the team progresses through the Educate, Evaluate, and Execute phases, the Enable phase is put into practice. The Enable phase includes the set-up of a Center of Excellence, Coaching of the enterprise team on how to discover new and analyze current processes, training on the selected automation software platform, and the completion of a thorough Process Discovery analysis.

EDUCATE

- Teach RPA Capabilities and Limitations
- Identify Possible Implementation Areas and Low-Hanging Fruit
- Select Processes for Discovery Session/Define Digital Transformation

1-2 Weeks

EVALUATE

- Obtain Details for Selected Processes
- Product Installation
- Verify Technical Approach and Assumptions
- Document Current Cost and Performance/Measurement Criteria

1-2 Weeks

EXECUTE

- Automate Processes
- Deploy Automated Processes to Production
- Broader Implementation Plan
- Hyper Care

8-10 Weeks

ENABLE

COE Add-on

Formulate Strategy for:

- DevOps
- Infrastructure
- Operations Management
- Change Control and Governance
- BCP/DR

4 Weeks

Coaching Add-on

- Process Discovery Training
- Process Analysis Training
- Automation Platform Practical Training

3 Weeks

Process Discovery Add-on

- Organization Wide Discovery Captures:
- RPA Feasibility
- Implementation Efforts
- Business Value
- Implementation Prioritization
- Capacity Allocation Planning

6-8 Weeks

RPA90X Delivery Pod

Process Analyst

- Process Definition
- SLA Definition
- Escalation Procedures

RPA Engineer

- Automation/Development/Testing
- UAT Support
- Development Support

RPA Lead

- Solution Design
- Process Design
- Tech. Architecture
- E2E Configuration

The **RPA90X** program is a proven program that helps companies achieve real fast results with their automation initiatives and comes with a risk-free 30-Day guarantee. Contact us today to discuss how RPA90X can help your business achieve its automation goals and see some real results from RPA90X programs implemented in different industries below.

RPA90X Use Cases

RPA90X at a Loan Servicing Company

Processes Created <ul style="list-style-type: none">• Claims• Customer Credit Disputes• Denials	\$18,600 Monthly ROI	930+ Man Hours Saved
--	--------------------------------	--------------------------------

RPA90X was a gateway for many saving opportunities at this Loan Servicing Company. The client began with the RPA90X Program and with the guidance and expertise of the Accelirate team saw an immediate ROI as they had three RPA Processes designed and implemented by the end of the 90 Days. Since then, the client has worked with Accelirate to automate numerous time-consuming tasks, alleviating pressure off of their employees, increasing overall employee morale at work, seeing huge dollar amount savings at the bottom line, and most importantly increased ability to assist customers as more employees were free of repetitive tasks to help individual consumers properly and more efficiently.

RPA90X at a Large Energy Company

Processes Created <ul style="list-style-type: none">• Electronic Ticketing Support• Accounts Payable	\$15,200 Monthly ROI	760+ Man Hours Saved
--	--------------------------------	--------------------------------

For this Large Energy Company, RPA90X helped the client to fully understand RPA and the many benefits it offers beyond just time and money saved. By the end of the 90 Days the client had two processes implemented and since then is seeing over \$15,000 returned to their business each month from their investment in the Accelerator program. The success they have seen and the relationship they have built with us from the implementation of their current processes have inspired them to move forward in their RPA Journey even more by continuously looking for new process automation opportunities to pursue next.

“RPA90X was an excellent program to help us quickly understand how best to utilize RPA in our unique organization. With the blueprint that RPA90X delivered we are confidently moving forward with new automation opportunities found on our RPA journey.”

RPA90X at a Higher Education Company

Processes Created <ul style="list-style-type: none">• Accounts Receivable• Enrollment• Enrollment OCR	\$20,900 Monthly ROI	1,030+ Man Hours Saved
--	--------------------------------	----------------------------------

For this Higher Education company, Accelirate implemented the RPA90X Program to help the client get their initiatives in shape and identify which processes were the best fit for automation. With ROI as the focus, we were able to get three RPA processes up and running by the end of the 90 days. We took the client from a company that had no RPA implemented, to a company that is saving over \$20,000 every month from the three processes they now have in place. RPA90X was such an incredible tool for them that the company decided to further the partnership with Accelirate and currently in the process of selecting more tasks to automate.

“RPA90X helped our company to jump start its RPA program, by identifying proof-of-concept projects and adding training on how to assess projects and develop a start-to-finish project management process. We are very pleased with the results of our RPA90X program and pleased with Accelirate’s ability to tailor the program to meet the needs of our company by helping us deliver tangible results. The Accelirate team has been flexible and responsive and has used their expertise around RPA and business process design to become a valued business partner.”
