

AI: HYPE VS. REALITY | Finding the Right Fit

CONCERNS

- Misinformation in AI assistants
- Privacy concerns with AI-powered tools
- LLMs used for low-value content creation
- Copyright infringement and disruption in education and research
- Unsustainable resource demands

OPPORTUNITIES

- Pattern recognition and optimization
- Aiding doctors, detecting diseases, clearing ordnances
- Enhancing analytics platforms
- Forecasting sales, detecting data outliers
- Specialized, niche applications
