# How Agentic AI with Tableau Next Is Changing the Future of Data Analytics?

Static dashboards are no longer enough. Businesses need analytics that spots problems, recommends fixes, and acts instantly. That's exactly what happens when Agentic AI meets Tableau Next.

WHAT IS AGENTIC AI?

SEES → **DECIDES** → **ACTS ON DATA**

No waiting for human input.

What Is Tableau Next?

The Next-Gen Version Of Tableau, Built On Salesforce AI + Data Cloud. Goes Beyond Visuals:

→ Natural Language Queries

→ Predictive Insights

→ Real-Time Anomaly Detection

Together they deliver:

- Instant dashboards when anomalies appear
- Real-time alerts with recommendations
- Autonomous actions that save hours

EXAMPLE: Sales dip due to logistics delay

Fix ETA:
2 days

Revenue at risk:
$38,000

Dashboard auto-shared with the team.
